## Summary

I am a Front-End Developer by mind and an 3D Designer by heart, with over 9 years of experience in driving modern and minimal design, with a proven expertise and solid knowledge of 3D Modeling and Rendering using AutoCAD, 3Ds Max, SketchUp, and in modern web development technology and tools, such as JavaScript, HTML, and CSS. Adept at working productively to achieve goals both as a cross-functional team member and individual contributor. My passion is to bridge codes and designs to the modern computer era. My objective is to improve people's quality of life by bringing high-tech research into the software industry. Currently looking for a challenging new design role in a 3D visualization or Augmented Reality firm.

## Areas of Expertise

- Conceptual Design
- 3D Modeling
- Interior Design
- Texturing and Lighting
- Front-End Development
- ECMA Script 2017 Development
- Web Design
- Agile Scrum Methodology

## Qualifications Summary

- Developed fully functional responsive prototypes based on business requirements using HTML/HTML5, CSS3, JavaScript and jQuery.
- Leveraged responsive web frameworks to consistently complete product deliverables ahead of schedule.
- Solid knowledge of 3D Modeling and Rendering using AutoCAD, 3Ds Max, SketchUp, and Vray.
- Worked in Agile and Scrum settings.
- Demonstrated passion and commitment to truly understand user needs through research.
- Owned projects as well as directly designed, sketched, wireframed and implemented complex UI components.
- Created documentation for user experience and design guidelines.

## Certifications

JavaScript & ES6

Scrum Master

Vue Js

MongoDB

AutoCAD

C# UWP Application

XAML

## Languages

English: Proficient

Farsi: Native

## Professional Experience

**VIT** – (Voice of Information Technology)

2008 - Present

Founder and Principal Consultant

VIT is a leading civil and software product development in Mazandaran. Established in 2008 with a desire to profound transformation of business, organizational activities and processes.

As a Founder and Principal consultant some of my responsibilities included but are not limited to:

- Maintained client relationships.
- Researched on latest design standards and implemented best practices.
- Ensured product compliance with web standards and accessibility requirements.
- Designed highly responsive user interface and enhanced system user interface to be supported by all major browsers and platforms, including mobile phones, tablets and XBOX ONE.
- Participated in designing and development of software using agile development practices.
- 2D and 3D Modeling of complex designs.
- Design vector graphic assets.
- Texturing, Lighting and rendering interior and exterior design of building.
